- 1. Light-weight, frameless, easy to install and remove without leaving marks!**

A simple, flawless design that is easy to install. The special frameless feature allows your LCD TV to keep a sharp clean appearance.

- 2. Scratch resistant durable material!**

The durable material keeps the delicate surface of your LCD TV from getting accidentally scratched or broken.

- 3. No dust! No scratches! No fingerprints!**

Consider that your LCD TV screen collects dust and fingerprints. Most scratches come from cleaning. The LCD filter prevents the LCD screen from attracting dust. Never having to clean the LCD screen improves the life of your LCD TV.

- 4. Enhances image resolution and quality!**

The High Quality lens of the LCD filter enhances sharpness and contrast from the LCD screen to provide sharp and colorful images.

- 5. Anti-UV ray ! -> optional item number mark "U"**

Reduces ultraviolet (UV) to minimize eye fatigue and body & skin injury while using the LCD TV for a long time
